TECHNOLOGIES

FRONT END

HTML	CSS
Sass	JavaScript
TypeScript	VueJS
NuxtJs	Pinia
GraphQL	RxJs
Jest	Cypress
Vite	StoryBook
Figma	Hotjar
Google Analytics	Google Tag Manager

BACK END

NodeJS	ExpressJS
Python	MySQL

OTHERS

BitBucket	GitHub
Netlify	Git

LANGUAGES

English	–	Professional
German	–	Basic
Spanish	–	Native
Catalan	–	Basic

SOFT SKILLS

Adaptable	Care for detail
Teamwork	Problem solving
Autodidact	Organized
Methodic	Autonomy
Productive	Analytic
Creative	Proactive

EXPERIENCE

Frontend developer – Sembo [Travel industry]

August 2022 – Currently

- Key role in the development of the new mobile version of the company's main project using Vuejs and TypeScript.
- Mentored new members on the project due to my quick adaptation to the project.
- Reduced Google Maps API costs by 38%.
- Build the main project using the Model-View-ViewModel (MVVM) architectural pattern.
- Observable design pattern application through use of RxJS library.
- Test coverage: unit test with Vitest and end-to-end with Cypress.
- Good practices and code quality according to VueJS Style Guide ensured by a custom configured Prettier and ESLint.
- Track user actions with Google Tag Manager and Google Analytics, and user feedback with Hotjar.
- Created a library of reusable components on Storybook, following the company's internal design system.
- Agile methodology (Scrum).
- International team.
- Collaborate across teams, from designers to backend and devOps.
- Continuous Integration and Delivery (CI/CD).

Frontend developer – Jan Choueiri [Consultancy]

March 2022 – August 2022

- Design UI/UX solutions using Figma.
- Features development with VueJS and NuxtJS.
- Test driven development (TDD) using Jest.

EDUCATION

Web development – Autodidact

2021 – Currently

- Udemy and Frontend Masters advanced courses about Sass, JavaScript, TypeScript, VueJS and NodeJS
- Projects and exercises to put knowledge into practice

Biochemistry degree – Balearic Islands University (UIB)

2017– 2021

- Average grade above 8
- 2 honourable mentions
- Programming skills using R and Python with a focus on statistical analysis

ACHIEVEMENTS

Winner of the **García Palmer Scholarship 2021** as the best candidate from the Balearic Islands to work as a research technician at the Balearic Islands Health Research Institute Foundation (IdISBa)

CERTIFICATIONS

Web development – Google Activate 2021

- Web Development Introduction II (40h)
Credential ID: M9G U46 6ST
- Web Development Introduction I (40h)
Credential ID: G9N L9A 94J

COURSES

Udemy

- Git Complete: The definitive, step-by-step guide to Git (6h).
- Advanced CSS and Sass: Flexbox, Grid, Animations and More! (28h).
- The Complete JavaScript Course 2022: From Zero to Expert! (68h).
- Vue – The Complete Guide (incl. Router & Composition API) (49h).
